

PROJECT MANAGEMENT

1 YEAR - CAREER PROGRAM

ABOUT THE PROGRAM

Project Management* is a one-year AEC career program that allows the student to acquire the necessary skills to act as a technical support agent for a project manager or to work as a qualified project manager.

In the field of accounting, project managers must be able to provide technical support by way of financial analysis, internal control, auditing, budget planning, and/or costing.

Project managers must also support and assist the work related to the management of a company's human, financial and material resources. These responsibilities may be associated with the management of business development projects or international business transactions. Their responsibilities may also include the supervision of personnel.

IS THIS FOR YOU?

Effective project managers must be versatile due to the complex and ever-changing work conditions of the modern world. They must be able to analyze problems quickly and react effectively to meet the evolving needs of the organization. The skills acquired in this program will enable graduates to:

- Establish quality interpersonal relationships
- Communicate effectively in French and English
- Manage professional activities
- Apply the principles, techniques, and methods specific to the field of project management

CAREER PROSPECTS

- Project Manager
- Technical Support Agent

NOTE

Please note that this is a specialty workforce training program designed for newly arrived laborers in Canada. The program is not available for local student applications.
